

INTERNATIONAL SHOOTING SPORT FEDERATION

The Secretary General

Munich, October 27, 2021

To whom it may concern

We herewith confirm that MATTARELLI equipment was successfully used at the two Olympic Games which had been held in Atlanta 1996 and Sydney 2000. The shotgun disciplines were performed on the Mattarelli machines at these two Olympic Games.

Mattarelli clay target machines have been used successfully at many ISSF World Cups and Championships of different continents including the ISSF World Championship Changwon in Korea 2018, the World Championship Lonato in Italy 2019 and the President's Cup Larnaca in Cyprus 2021.

With best regards

Alexander Ratner
